

# TRAVEL COMPANION

LET'S EXPLORE WORLD

# INTRODUCTION

The goal of the Travel Companion App is to make travel enriching and effortless. From real-time weather updates and language translation to identifying and describing landmarks through photos, our app combines convenience and intelligence. It's your go-to guide for discovering destinations, planning visits, and accessing everything you need for a seamless travel experience—all in one place.

# How it Works

- 1 Start with Location Setup
- 2 Interactive Chat Begins
- 3 Contextual Conversations with Memory
- 4 Real-Time Features
- 5 Location-Specific Insights
- 6 Map Integration and Slider Options:

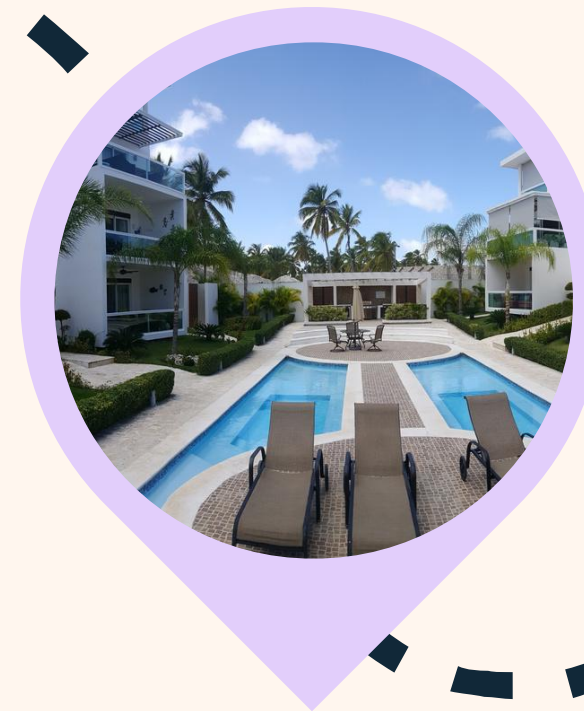

# KEY INSIGHTS

Personalized Travel  
Experience

Seamless Multilingual  
Interaction

Enhanced Tourist  
Information via RAG

Real-Time Information  
Integration

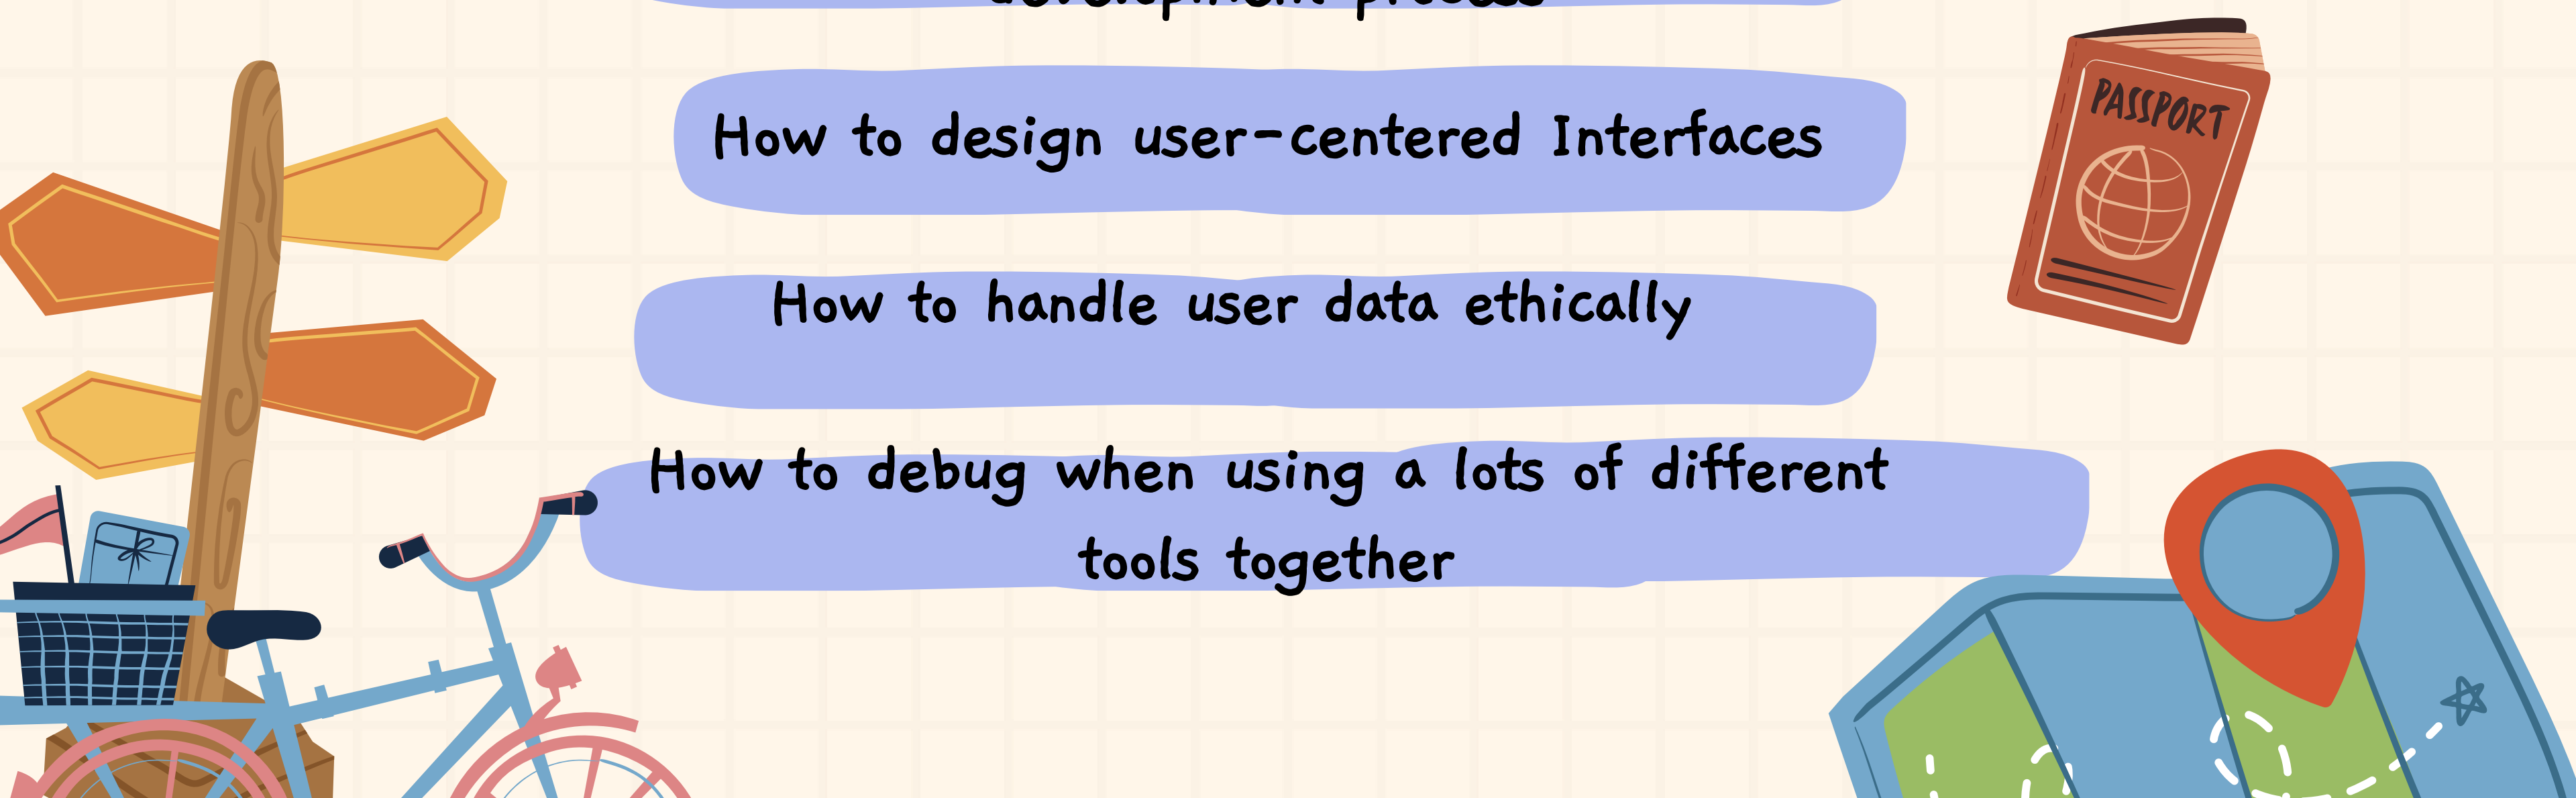

# LESSON LEARNED

Why testing is important part of an app development process

How to design user-centered Interfaces

How to handle user data ethically

How to debug when using a lots of different tools together
